Mrs. C. Thangamani holds a Bachelor of Engineering (B.E.) degree in Electronics and Communication Engineering, which she completed at Pavai College of Technology. She further advanced her academic pursuits by earning a Master of Engineering (M.E.) degree specializing in VLSI Design from K.S. Rangasamy College of Technology. Her educational background highlights a strong foundation in electronics and communication systems, coupled with specialized expertise in the design and development of Very Large Scale Integration (VLSI) circuits.

With a keen interest in teaching and mentoring, Mrs. Thangamani has gained one year of valuable experience as a Teaching Assistant in the Department of Mechatronics Engineering. During this period, she contributed to both academic and practical learning environments, supporting faculty members in delivering lectures, conducting laboratory sessions, and guiding students in their academic projects. Her interdisciplinary exposure to electronics, communication, VLSI design, and mechatronics makes her a versatile and resourceful educator.
